M/s.Onyx Siri technologies
Hyderabad.

Dear Sir/Madam,

Appreciation Letter for Timely Support - ECE -DCR Modules Supply -Reg

We at **Pragathi Power Solutions, Tirupati** would like to express our sincere gratitude to M/s.Onyx Siri technologies (**ECE Solar** Modules) for their timely delivery of 928 Modules with wp of 545 bi-facial of high-quality DCR solar modules.

This support was a critical factor in enabling us to complete our Target **at Naravaripalle** — the native village of our Hon'ble Chief Minister **Sri Nara Chandrababu Naidu Garu** — within a challenging timeline of just **45 days**.

At a time when the market was facing a heavy demand for DCR modules, your commitment to schedule and quality helped us maintain our promise to the stakeholders and ensured smooth execution of this prestigious project.

Moreover, we are happy to share that the efficiency and performance of ECE Solar modules were significantly better when compared to other brands we used in the same village. This performance difference was clearly reflected in the system output and customer satisfaction.

Thank you once again for being a reliable and trusted partner. We look forward to continuing this successful collaboration in our future ventures as well.

We look forward to many more such successful collaborations in the future.

With sincere thanks,

K.Chandra Sekhar
Pragathi Power Solutions
Tirupati.
